HECHO A MANO HANDMADE EN PANAMA

Viviendo is a Panamanian company focused on Social Sustainability. We do not donate a percentage of our sales, instead we share knowledge and empower individuals through meaningful employment, both legacies that will endure. Over 80% of our handcrafters are women from rural areas of the country.

Our project revitalizes artisan handicrafts through innovation, creativity and quality. We are environmentally sustainable, using only natural and recycled materials.

HECHO A MANO HANDMADE EN PANAMA

Viviendo es una empresa panameña que practica la Responsabilidad Social Sostenible. No donamos un porcentaje de nuestras ventas, en vez de ello compartimos conocimiento y empoderamos individuos a través de empleos dignos, legados que perduran. Más de un 80% de nuestros artesanos son mujeres de áreas rurales de nuestro país.

Nuestro proyecto nace con el fin de renovar el trabajo artesanal a través de la innovación, la creatividad y la calidad. Es sostenible con el medio ambiente, utilizamos sólo materiales naturales y reciclados.

 4" diameter x 5" height

Color and pattern design options:

At **Vivendo** we focus on the importance of fair jobs and sustainable development. Zaira is responsible for designing the products, but works together with women from the central provinces of the country for the production of every piece. She travels deep in the countryside, and trains women to help her make the beautiful pieces that are part of our line of products. A truly fair trade initiative, our products are proof that crafting traditions and caring for the environment can find common ground, resulting in beautiful and meaningful products.

En **Vivendo** nos enfocamos en la importancia de crear trabajos dignos y en un desarrollo sostenible. Zaira es esta a cargo de el diseño de los productos, pero trabaja en conjunto con mujeres campesinas de las provincias centrales de nuestro país en la producción de cada pieza. Zaira viaja a áreas remotas de la campiña y entrena a estas mujeres quienes después participan en la confección de hermosas piezas las cuales forman parte de nuestra colección de productos. Una iniciativa verdaderamente inclinada al mercado justo, nuestros productos son prueba de que técnicas artesanales de tradición y el cuidado por el medioambiente pueden encontrar un lugar en común, el cual nos conduce a crear productos con un valor significativo y una creatividad única.

"Because quality not only in the products you consume but also in the lives of the people who make them."

"Buena calidad no sólo en los productos que consumes sino también en la vida de las personas que los confeccionan."
